

## Vanguard! DIN Rail Mounted GFCI Outlet

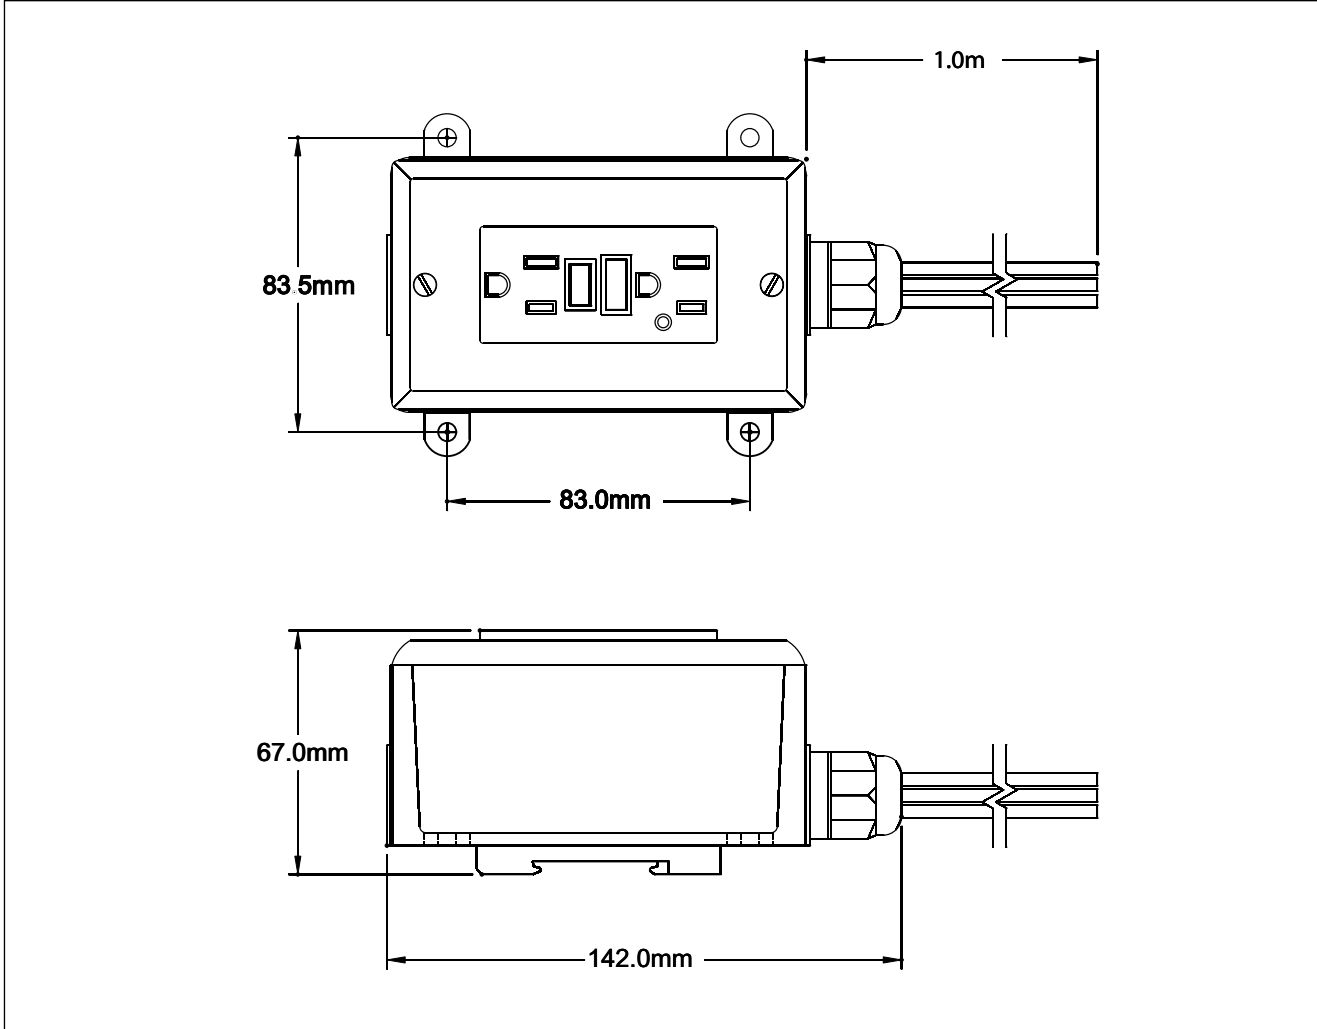

- Mounts on 35mm DIN rail, direct mounted if foot is removed
- cULus approved GFCI outlet rated 15A. Includes status LED.
- All plastic enclosure
- 1m of 12 AWG wire for the line neutral and ground instead of terminals

This module allows a ground fault protected outlet to be added to a control cabinet quickly and easily. Instead of terminals for the incoming power the module includes 1m wires. (12 AWG, CSA certified and UL approved). These are cut to length by the user and connected to the supply terminals.

The GFCI outlet meets the latest requirements of the NEC. The DIN rail mounting foot can be removed so the module can be direct mounted using 4 mounting tabs. The enclosure is plastic and CSA/UL approved.
